## Principal's foreword

### Introduction

Urangan Point is a Band 8 school located at the tourist end of Hervey Bay. Urangan Point is a primary school providing quality education for all students from Prep through to Grade 7. Our school serves a diverse community which is made up of families who have made educated choices to transport their children to school, families who reside in a range of living situations; and families from various cultural and religious backgrounds. Our school draws its enrolments predominantly from the local area; however, there are children who travel from Booral, River Heads, Torquay, Pialba, Dundowran and Toogoom.

At Urangan Point State School we:

- Encourage our children to strive to be active citizens in a learning community;
- Aim to provide quality education in a safe, tolerant and disciplined environment, where everyone is encouraged to take responsibility for their own behaviour;
- Prepare our students for an active role in our democratic society. There is a strong focus on high expectations, equity, inclusiveness and the building of social responsibility.

We have a cohesive community where we work together to achieve the best for the children. We celebrate success, recognise that different people learn in different ways and we strive to provide an environment which nurtures this belief. We endeavour to build relationships with all students and their families, so that we can maximise the child's learning outcomes.

Our Core Values are:

- ✓ Respect;
- ✓ Responsibility;
- ✓ Caring and;
- ✓ Safety.

We believe:

- ✓ Every child is unique and deserves the right to be treated with respect, understanding and courtesy;
- ✓ That children are individuals and each should be provided the opportunity to reach their full potential;
- ✓ By fostering relationships through open communication within the community we work as partners to provide quality education;

All students have the right to be educated in a safe and nurturing environment.

Every classroom has an interactive whiteboard and at least 4 computers for use by students to assist their learning. Our library also offers 2 interactive whiteboards to give greater access for staff and students when needed. Teaching staff make use of their C4T laptops to assist them to plan for, implement and assess student learning. Students and staff utilize a range of computer based programs and internet options to enhance learning. Staff members work towards having their ICT skills improved and recognised through continual attendance at professional development opportunities throughout the year. Our school is well supported in the area of ICT hardware by an active and enthusiastic P&C.

## Social Climate

A whole-school supportive environment monitored by the Principal, Deputy Principal and the Support Teacher Learning Difficulties through a team approach, supports children's social, emotional and academic needs. The team includes – Principal, Deputy, Support Teacher Learning Difficulties, Student Welfare Teacher, Guidance Officer, Classroom teachers, AVT and Special Education Teachers, Behaviour Management Staff, School Chaplain, Indigenous Education Officers and teacher aides. This group works in liaison with other agencies where necessary.

In 2014, the following responses were received from the School Opinion Surveys:

- 100% of parents were satisfied that this was a good school.
- 100% of parents felt their child feels safe at school.
- 100% of parents felt the teachers expected their child to do their best.
- 100% of parents felt they could talk to their child's teachers about their concerns and that the school works with them to support their child's learning.
- 89% of students were satisfied they were getting a good education at this school.
- 98% of students felt their teachers expected them to do their best.
- 90% of students felt the school gives them opportunities to do interesting things.

The student welfare officer, in conjunction with the school chaplain, started the implementation of the LionsQuest Social Skills Program to support students and families. A clear and comprehensive approach to school behaviour is enacted and visible through the school. All stakeholders are aware of what is acceptable and avenues they have to combat perceived bullying, safety issues and fair treatment.

As a school community we have invested time into forming strong community relationships. Our parent community is aware of school decisions, can discuss future directions and have an input into the teaching and learning process. Our children can then develop skills for lifelong learning to enable them to contribute to society as a whole.

\* Nationally agreed student and parent/caregiver items were incorporated in the School Opinion Survey in 2012.

# 'Agree' represents the percentage of respondents who Somewhat Agree, Agree or Strongly Agree with the statement. Due to a major redevelopment of the surveys (parent/caregiver and student in 2012; staff in 2013), comparisons with results from previous years are not recommended.

## Reducing the school's environmental footprint

Our school has installed solar panels to assist in reducing electricity costs and becoming more environmentally friendly. A group of students called the Caring Crusaders implemented a number of environmental activities. Throughout the year, they conducted an electrical use reduction program. Students checked electrical appliances were switched off when not in use. This group also added recycling of aluminium cans to the recycling of paper and sorting of school waste into recycling and non-recycling bins. The tuckshop food waste was collected each day and composted with the aid of the school worm farm. The Caring Crusaders completed a school wide water check for leaks to further improve the water use in the school. Each term, students from the Caring Crusaders would promote a range of sustainable and environmental topics on assembly. The aim was to improve the environmental footprint of the school and the wider community through this shared learning.

Years	Environmental footprint indicators	
	Electricity kWh	Water kL
2011-2012	76,988	1,021
2012-2013	71,082	1,779
2013-2014	81,753	6,515

The consumption data is compiled from sources including ERM, Ergon reports and utilities data entered into OneSchool by each school. The data provides an indication of the consumption trend in each of the utility categories which impact on the school's environmental footprint.

### Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DETE policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

Class rolls are marked twice a day by the classroom teacher and the class rolls sent to the office each afternoon. All student absences are reviewed daily (by the Administration Team) and entered onto the school database. When a student has been absent for 3 consecutive days, parental contact is made to discuss the absences. If a student has been absent for longer than 10 consecutive days without reason, then the school implements procedures outlined in the 'Enforcement of Compulsory Schooling and Compulsory Participation' policy.

## Achievement – Closing the Gap

**“Every day, in every classroom, every student is learning and achieving” the priority for all Indigenous students as stated in Indigenous Education Strategic Directions 2008-2011.**

As part of this strategy at Urangan Point State School, we have strengthened our relationship with Women’s Health and an indigenous Education Worker on staff (who is also a member of our Indigenous community) and the EATSIPS support group, in focussing on cultural identity, awareness and friendships. The aim is to provide a safe and supportive environment in which to establish positive relationships with significant role models for all Indigenous students in P-7. It is planned that this will be achieved through the Healthy Eating Days (each Thursday) where the P-7 students are provided with a healthy lunch and provision of shirt, hat and travel bag to each Indigenous student. This has developed a sense of community and pride among the Indigenous students. We have also established an Indigenous Centre within the school where students can have access to an Indigenous member of staff during lunch breaks (and a place they can identify as their own). We currently have 18% of our student population as identified Indigenous from enrolment information (based on 2014 figures). With this number of students it is possible to identify their strengths/weaknesses and set individual targets for improvement and in order to ‘close the gap’.

Support strategies, current and proposed, include:

- Teacher Aide support, funded by ITAS in 2009 and Closing the Gap in 2010-2014, for students to focus on Literacy and Numeracy Prep-Year 7. This involves the teacher aide working in conjunction with the classroom teachers to identify areas where further intensive teaching is needed to consolidate learning and develop deep understanding for each student.
- Literacy support in addition to that provided by the class teacher for our Indigenous students will be provided through the Intensive Teaching program (Years 3/5) in 2011, the Upper Primary Literacy Grant (Years 6/7 until June 2011), and the Support Teachers : Literacy and Numeracy (STLaN).

Based on NAPLAN 2008 data, and with the objective of Closing the Gap by 75% in Year 3 Reading and Numeracy from 2008 to 2012, the following targets for improvement have been identified.

(National Mean – School Mean = x. (75% of x) divided by 4 (yrs) = target no. of points for improvement each year 2008 -2012.)

	National Mean	School Mean	Target					
Year	2008	2008	2009	2010	2011	2012	2013	2014
